Pam
Roach
State Senator • GOP

August 25, 2006

Dear Friend,

Over the years I have always stood to protect our Second Amendment rights. *Today I am seriously concerned that these rights are being threatened.*

As I write this letter, Seattle Mayor Greg Nickels and Cease-Fire are moving forward with their plans to take away our Second Amendment rights.

Legislation is being proposed next year in Washington by Cease-Fire and Greg Nickels that would require private collectors, private citizens and other non-dealers to conduct background checks before selling their guns "at gun shows or otherwise."

Already proposed at the Capitol is a ban on ownership on any .50-caliber firearm or cartridge in Washington State. In addition, these folks want to repeal our state "preemption laws." **If you hunt this is important to you.**

Without preemption laws, any local law would override state gun laws. You would not be able to travel 20 miles down the I-5 corridor without knowing if you are legally carrying or not – good luck getting to the mountains to hunt! Cities would be a patchwork of rules and regulations about gun ownership and carry.

Listening to these liberals, you would think that the only important legislative goals were getting guns out of the hands of law-abiding citizens and protecting "endangered" wildlife.

The truth is, there is an endangered species you can help protect.

It's not an owl or a fish or a bug – it's the common sense legislator who puts a love for the outdoors above partisan politics. That's the true endangered species in Washington state.

If you're like me and enjoy hunting and fishing ... if you know how to use a shotgun ... then you know sportsmen are often under attack in the Legislature.

To liberal legislators, a gun is a symbol of everything that's wrong in America. If they could, the liberals would just ban gun ownership outright.

Along with a few other legislators, I have been able to help stop anti-sportsmen legislation from becoming law and keep Washington an open and friendly place for hunters and fishers.

I am honored to have the endorsement of the NRA and the leaders of many local sportsmen's groups again this campaign. They know they can count on me to enhance wildlife habitat, protect our rights, and allow access to public lands for hunting the fishing.

With each key vote in Olympia, we've had to reach out across the aisle to rural Democrats who share our love for the outdoors.

There's a lot of work to do ... called common sense wildlife conservation ... recognizing that hunters and fishermen play an important role in preserving the balance between predator and prey with the harvest of healthy wildlife species.

Yet, our misinformed urban colleagues often meet these science-based proposals with howls of pain. And worse, they work overtime to defeat senators who protect our lifestyle.

Why are they fighting so hard? Because they must win at least two more seats in the state Legislature to pass their liberal legislation.

Restricting gun rights and an assault on hunting and fishing are only the first items on an anti-sportsmen agenda from people who would remake our state in the image of Seattle.

Washington state has some of the toughest campaign finance laws in the country. Before September 19, you can contribute up to \$1,400. After that date, contributions are limited to \$700. Both individual and corporate contributions are allowed -- so please give today!

You see, there are no fat cats writing big checks. There's only you and voters like you who are willing to stand up and speak out to protect our way of life.

Your contribution of \$500 buys five 4 x 8 highway signs; \$200 will buy a good sized newspaper ad in one of our local weeklies; even \$25 buys 200 brochures to hand out door-to-door.

Take action against the legislators who would seize your constitutional rights, and make a contribution today to Citizens for Pam Roach. Your contribution will help me maintain a strong role for sportsmen in the state Senate.

Sincerely,

PAM ROACH
Senator, 31st District

P.S. Please join me at a Barbecue Shootout at the Black Diamond Gun Club, \$35 minimum donation (please come even if you don't shoot), Saturday, September 16th @ 4 pm. Your support is important to me.
